

Equities

In total, 255 companies were listed on the Exchange at the end of 2005 – 242 on the main market, and 13 on the parallel market. Of these 240 companies were quoted in the continuous trading system, while the remaining 15 were traded in the single-price system with two auctions per day.

Value of public offerings amounted to PLN 6.98 billion of which PLN 5.25 billion were raised by companies through capital increase.

The largest offering was the sale of stock of Polskie Górnictwo Naftowe i Gazownictwo (PGNiG) of PLN 2.68 billion in value.

Ten companies were excluded from trading – five due to takeovers by other companies and subsequent withdrawal from public trading, and five due to bankruptcy.

The capitalisation of domestic companies at the end of 2005 amounted to PLN 308.4 bil-

lion, which was 44% higher than the year before (PLN 214.3 billion). When foreign companies are taken into account, the WSE market capitalisation at the end of 2005 totalled PLN 424.9 billion (45.7% up over the previous year).

Allotment certificates

Allotment certificates (PDA) are financial instruments which allow investors who have bought newly issued shares on the primary market to sell them before they are introduced to trading on the Exchange.

In 2005, allotment certificates for the shares of 34 companies were introduced to trading; twenty-four of them related to shares of new companies and ten to those of companies which were already listed.

Note: In all Fact Book 2006 tables, the names used are those under which companies were quoted as of December 31, 2005. See table on page 21 - "Change of company names in 2005"
